

DEPARTMENT OF THE NAVY  
BOARD FOR CORRECTION OF NAVAL RECORDS  
2 NAVY ANNEX  
WASHINGTON, D.C. 20370-5100

JRE  
Docket No: 596-00  
19 October 2000

Dear 

This is in reference to your application for correction of your naval record pursuant to the provisions of title 10 of the United States Code, section 1552.

A three-member panel of the Board for Correction of Naval Records, sitting in executive session, considered your application on 13 October 2000. Your allegations of error and injustice were reviewed in accordance with administrative regulations and procedures applicable to the proceedings of this Board. Documentary material considered by the Board consisted of your application, together with all material submitted in support thereof, your naval record and applicable statutes, regulations and policies.

After careful and conscientious consideration of the entire record, the Board found that the evidence submitted was insufficient to establish the existence of probable material error or injustice. In this regard, the Board noted that you received treatment at the Yosemite Medical Clinic on 10 August 1998 for a condition classified under International Classification of Diseases code 844.8 as a "sprain, specified site, knee and leg". The Board was not persuaded that you sustained a torn anterior cruciate ligament on that date. Accordingly, your application has been denied. The names and votes of the members of the panel will be furnished upon request.

It is regretted that the circumstances of your case are such that favorable action cannot be taken. You are entitled to have the Board reconsider its decision upon submission of new and material evidence or other matter not previously considered by the Board. In this regard, it is important to keep in mind that a presumption of regularity attaches to all official

records. Consequently, when applying for a correction of an official naval record, the burden is on the applicant to demonstrate the existence of probable material error or injustice.

Your original receipt from the Yosemite Medical Clinic is returned herein. You should consider contacting the Department of Veterans Affairs to apply for service connection for your knee condition. That agency will make an independent determination concerning the origin of your condition.

Sincerely,

W. DEAN PFEIFFER  
Executive Director
